Dear Summer Glen Homeowner:

I have been asked to contact you by the Board of Directors regarding some new information that has come to their attention. If you would reference the letter sent to each of you pertaining to the upcoming water restrictions by Donala Water District, you will see that it states that your Community will be limited to watering turf areas only 2 days per week. This information was obtained by Board members thru interviews with two separate Donala representatives on three occasions.

Unfortunately, in a recent conversation with Dana Duthy, a more senior Donala employee, during a Board inquiry regarding a possible water rate decrease should we reduce the amount of grass we are watering, Mr. Duthy revealed that the prior information provided to the Board was erroneous. The actual restrictions beginning June 1st limit watering to 3 days per week, rather than 2 days per week. The time permitted for watering on those days is 6:00 p.m. to 9:00 a.m.

The voting procedure in place regarding the sod reduction and possible special assessment will continue to progress as planned, however the Board wishes each homeowner to have this new, more accurate information prior to making a final voting decision.

Thank you for your time and attention.

At the Direction of the Board of Directors,
Summer Glen Estates OA

Kerry Cantrell
Property Manager
